

WHAT IS A ZONING PERMIT?

A zoning permit is an official finding by the Zoning Administrator that a planned use of a property or a proposed structure, as indicated in the application, complies with the requirements of the Zoning Ordinance. A building permit shall not be issued until a zoning permit application has been submitted to and approved by the Zoning Administrator.

WHEN IS A ZONING PERMIT A REQUIREMENT?

A zoning permit is required in any of the following cases: (Section: 7)

- Construction of a building or moving a building onto a lot.
- Additions to an existing building, including porches and deck.
- Changes in the use of a building or parcel of land. For the purpose of this provision, a change in use would be when the use changes from one of the uses as listed in the Land Uses Defined (see Section 8) to another use listed in this section.
- Changes to a nonconforming use or a structure housing a nonconforming use including interior remodeling.
- Construction of a parking lot.
- Issuance of a conditional use permit.
- Construction of an accessory structure 100 square feet in size or greater.

Application for a zoning permit must be made before construction or change of use begins. When a building permit is also required for the project, application for a zoning permit can be made at the same time.

WHO APPROVES A ZONING PERMIT?

A zoning permit is reviewed and approved by the Zoning Administrator. An appeal of any decision by the Zoning Administrator in approving or denying a zoning permit is made to the Planning Commission, the Zoning Board of Appeals and the Village Council. (see Section 11 of the Village of Mayville Zoning Ordinances)
